

Al-Mas is the one and only adaptive solution that fully empowers schools to confidently predict performance and close skill gaps with automated insights and assessments.

Clear Skill Gap Insights

Instantly assess and identify NAFS skills your students are missing with automated, adaptive diagnostic exams. Say goodbye to worksheets, manual tracking and spreadsheet scores.

Track Student Progress

Monitor students growth and progress on every skill with real-time dashboards. Teachers and administrators can easily see progress and track achievement enabling timely interventions and support.

Curriculum Mapping Support

Curriculum mapping tools show that skills are taught, missed, or need reteaching, tailored to your unique program sequence. Plan proper interventions to ensure complete coverage of essential skills.

Real Time Dashboards

See student, class, and school-level skill gaps at a glance. Equip teachers and administrators with powerful, time saving tools to monitor students' progress efficiently and ensure improved outcomes.
